## PREFACE

This publication of the Central Statistical Office provides statistical data on advances granted and deposits accepted by the Finnish monetary institutions in 1959 - 1971.

The statistics are based on the material collected by the Bank of Finland Institute for Economic Research and adjusted by the Central Statistical Office for the years 1959 - 1964. Figures for 1965 - 1970 are based on the monthly statistics published by the Bank of Finland on the advances and deposits of the monetary institutions. In December 1970 the compilation of these statistics was transferred to the Central Statistical Office, which has published these series since then.

Some revisions have been in the more recent figures, and therefore they are not fully comparable with the previous data.

The balance sheets of the monetary institutions have been made use of when adjusting the figures.

The following information is also available on the advances granted and deposits accepted by the monetary institutions: percentage changes on the preceding month, percentage changes on the corresponding month one year earlier, changes on the end of the previous year and the corresponding percentage changes.

The treatment and adjustment of the figures has been carried out by Miss Tuulikki Lund, and the data processing by Mr. Matti Holkkola.

Advances granted by monetary institutions to the public and deposits  
by the public in monetary institutions, 1959-1971

Contents:		Page
Introduction		3
I Advances		
I	1. Advances granted by monetary institutions by type of claim, mill.mks.	6
I	2. Changes in advances granted by monetary institutions on the preceding month, mill.mks.	16
I	3. Changes in advances granted by monetary institutions on the corresponding month in the previous year, mill.mks.	26
I	4. Percentage distribution of advances by type of claim, mill.mks.	36
I	5. Development of total advances by groups of monetary institutions	38
II Deposits		
II	1. Deposits in monetary institutions by type of claim, mill.mks.	40
II	2. Changes in deposits in monetary institutions on the preceding month, mill.mks.	50
II	3. Changes in deposits in monetary institutions on the corresponding month in the previous year, mill.mks.	60
II	4. Percentage distribution of deposits by type of claim, mill.mks.	70
II	5. Development of total deposits by groups of monetary institutions	72

## INTRODUCTION

1. Monetary institutions - 'the public'

In this publication the monetary institutions comprise: the Bank of Finland, commercial banks, savings banks, co-operative banks, the Post Office Bank, mortgage credit institutions and savings funds of the co-operative stores.

The advances are granted to and advances made by 'the public', which consists of the private sector and the financial institutions (excluding the monetary institutions and central government). Thus the concept 'the public' does not include the abovelisted groups of monetary institutions and the state.
2. Claims

The various advances have been grouped as follows: cheque account credits, bills of exchange, other advances, total advances. 'Other advances' consists of the balance sheet item 'Loans'. The various advances indicated above include advances granted through the monetary institutions.

The break-down of various deposits is: cheque accounts, other deposits, total deposits. 'Other deposits' comprise savings and ordinary deposit accounts and service accounts, and in addition some special types of deposits, such as special index deposits and deposits on tax concession accounts and high-interest deposit accounts. Moreover, there are various fixed period deposits and deposits which are callable at notice.
3. Differences in comparison with previously published information

The December figures in the previously published statistics on advances granted and deposits accepted by the monetary institutions have been revised on the basis of the balance sheet figures. The adjustments have mainly been made in the figures of the co-operative and savings banks.

As for the Post Office Bank, the figures for both the advances granted and the deposits accepted have been adjusted. The series 'Private bonds' has been removed from the advances and replaced by 'Short-term investments'. Since January 1962 the balance sheet item 'Cheque accounts' has been given as a separate item; in previous publications these accounts was included in 'Other advances'.

The Post Office Bank's figures on deposits covered only ordinary deposits until February 1967. The figures in this publication also include the cheque accounts of the public from the beginning of 1959 to January 1967.

4. Comparison with the statistics on outstanding credits

The Statistics on advances granted by the monetary institutions does not cover the balance sheet item 'Domestic claims in foreign currency' and bonds at nominal value, which is an item given outside the balance sheet. However, both of these are included in the statistics on outstanding credits.

Prior to 1970, credits granted by one financial institution to another or to central government were not included in the statistics on outstanding credits. The statistics on advances granted by the monetary institutions on the other hand include credits obtained by the financial institutions with the exception of the monetary institutions listed in Point 1 as well as by central government.

The statistics on outstanding credits consist of the advances granted by the above-mentioned monetary institutions as well as insurance companies, the National Pensions Institute, development credit institutions, service credit institutions, financing companies of hire purchase trade and central government. At the end of 1970, statistics on advances granted by the monetary institutions totalled slightly more than 60 per cent of total outstanding credits according to the statistics on outstanding credits.
