TEOLLISUUSTUOTANNON VOLYYMI-INDEKSI 1980 JA TAMMIKUU 1981

Teollisuustuotanto laski tammikuussa 1 %

Tilastokeskuksen laskema teollisuustuotannon volyyymi-indeksi (1975=100) oli tammikuussa 128 eli 1 % pienempi kuin vuoden 1980 vastaava indeksi. Vuonna 1981 oli tammikuussa yksi työpäivä vähemmän kuin vuonna 1980.

Investointitavaroiden volyyymi-indeksi oli tammikuussa 107, muiden tuotantohyödykkeiden 135 ja kulutushyödykkeiden 126. Investointitavaroiden kuukausi-indeksi nousi 2 % vuoden 1980 vastaavaan indeksiin verrattuna, muiden tuotantohyödykkeiden indeksi laski 2 % ja kulutushyödykkeiden indeksi laski 2,5 %.

Tehdasteollisuuden erikoisindekseistä oli puu- ja paperiteollisuuden indeksi tammikuussa 149,5, metalliteollisuuden 121 ja muun tehdasteollisuuden 118. Puu- ja paperiteollisuuden indeksi laski 1 % vuoden 1980 vastaavaan kuukauden indeksiin verrattuna, metalliteollisuuden indeksi nousi 1 % ja muun tehdasteollisuuden indeksi laski 1 %.

Vuotta 1980 koskevissa tauluissa oleva lyhenne ULT tarkoittaa teollisuustuotannon kuukausittaisten volyyymi-indeksien keskiarvoa laskettuna vuoden alusta lähtien.

INDUSTRIPRODUKTIONENS VOLYMINDEX 1980 OCH JANUARI 1981

Industriproduktionen sjönk i januari med 1 %

Statistikcentralens volymindex för industriproduktionen (1975=100) var i januari 128 d.v.s. 1 % mindre än under motsvarande månad 1980. År 1981 hade januari en arbetsdag mindre än motsvarande månad 1980.

Volymindex för investeringsvaror var i januari 107, indexen för andra produktionsförnödenheter 135 och indexen för konsumtionsförnödenheter 126. Jämfört med motsvarande index år 1980 steg indexen för investeringsvaror med 2 %, indexen för andra produktionsförnödenheter sjönk med 2 % och indexen för konsumtionsförnödenheter sjönk med 2,5 %.

Av specialindexarna för fabriksindustrin var indexen för trä- och pappersindustrin i januari 149,5, indexen för metallindustrin 121 och indexen för annan fabriksindustri 118. I jämförelse med motsvarande månad 1980 sjönk indexen för trä- och pappersindustrin med 1 %, indexen för metallindustrin steg med 1 % och indexen för annan fabriksindustri sjönk med 1 %.

Förkortningen ULT i tabellerna av år 1980 betyder medelvärdet av de månatliga indexar beräknade från årets början.

INDEKSIÄ UUDISTETTU

Koska metalliteollisuuden indeksin virheet ovat viime vuosina olleet huomattavan suuria, on indeksiä siltä osin uudistettu. Sisällöllisesti uudistus perustuu siihen, että tiedonantajien lukumäärää ja indeksissä olevia tuotteiden ja työtuntien määrää on lisätty. Tällä tavoin indeksin peittävyyttä on parannettu. Uudistus koskee toimialoja 381, 382, 383, 384 ja 385. Uudistuksessa ovat olleet mukana Tilastokeskuksen edustajien lisäksi Valtiovarainministeriön, Suomen Metalliteollisuuden Keskusliiton ja Suomen Metalliteollisuuden Työnantajaliiton edustajat. Uudistuksesta laadittavaa raporttia saa pyynnöstä Tilastokeskuksesta.

Uudistuksen takia nyt julkaistaan tammikuun indeksin lisäksi vuoden 1980 kaikki kuukaudet uudelleen. Verrattuna vanhan aineiston pohjalta lasketuun indeksiin muuttuvat vuoden 1980 indeksipisteluvut keskimäärin seuraavasti:

| Toimiala | vanha indeksiluku | uusi indeksiluku | muutos % |
|-----------------------|----------------------|---------------------|-------------|
| Koko teollisuus | 125.3 | 126.1 | + 0.6 |
| 381 | 125.1 | 128.0 | + 2.3 |
| 382 | 120.3 | 124.6 | + 3.6 |
| 383 | 105.9 | 107.0 | + 0.9 |
| 384 | 88.6 | 90.5 | + 2.1 |
| 385 | 114.9 | 110.0 | - 4.3 |
| Metalliteollisuus | 118.4 | 120.8 | + 2.0 |
| Koko tehdasteollisuus | 123.2 | 124.0 | + 0.6 |

INDEXEN FÖRNYAD

Eftersom felen i indexen för metallindustrin under de senaste åren varit rätt stora, har indexen till denna del förnyats. Indexinnehållet har ändrats så att antalet uppgiftslämnare och antalet produkter och arbetstimmar i indexen har ökats. På detta sätt har indexens täckning förbättrats. Reformen gäller näringsgrenarna 381, 382, 383, 384 och 385. Förutom representanter för Statistikcentralen har även representanter för Finansministeriet, Finlands Metallindustris Centralförbund och Finska Metallindustrins Arbetsgivarförbund deltagit i reformarbetet. Rapporten om reformen kan på begäran erhållas från Statistikcentralen.

På grund av reformen publiceras nu förutom indexen för januari på nytt även indexerna för 1980 års samtliga månader. Jämfört med indexar som beräknats på basen av det tidigare materialet ändras 1980 års indexpoängtal enligt följande:

| Näringsgren | tidigare indextal | nytt indextal | ändring % |
|-----------------------|----------------------|------------------|--------------|
| Hela industrin | 125.3 | 126.1 | + 0.6 |
| 381 | 125.1 | 128.0 | + 2.3 |
| 382 | 120.3 | 124.6 | + 3.6 |
| 383 | 105.9 | 107.0 | + 0.9 |
| 384 | 88.6 | 90.5 | + 2.1 |
| 385 | 114.9 | 110.0 | - 4.3 |
| Metallindustrin | 118.4 | 120.8 | + 2.0 |
| Hela fabriksindustrin | 123.2 | 124.0 | + 0.6 |
