ISCED-AVAIN

1. Johdanto

UNESCOn kansainvälinen koulutusluokitus ISCED (International Standard Classification of Education) hyväksyttiin vuonna 1976 ja otettiin käyttöön kansainvälisessä koulutustilastojen vaihdannassa. ISCED on tilastollisiin tarkoituksiin tehty koulutusluokitus. Sen tavoitteena on ollut kansainvälisten koulutustilastojen vertailtavuuden parantaminen.

Koulutustilastoja voidaan vertailla vain hyvin karkeiden jaottelujen pohjalta. Tämä johtuu koulutusjärjestelmien erilaisuudesta, tilastotietojen saatavuudesta ja käsittelytapojen erilaisuudesta sekä siitä, että kukin maa tulkitsee ISCEDiä omalla tavallaan.

ISCEDin ja koulutusluokituksen välisen avaimen avulla koulutustilastoaineistot voidaan uudelleenryhmitellä kansainvälisen koulutusluokituksen jaottelujen mukaisiksi. Avainta ei voida käyttää yksittäisten koulutusten antamien pätevyyksien vertailuun.

Pohjoismaiden koulutustilastoasiantuntijoiden yhteistyönä on laadittu ISCEDin ja Pohjoismaiden kansallisten koulutusluokitusten välille avaimet (Nordic key for classification of education, Nordisk statistisk sekretariat, Tekniska rapporter, nr 25). Tämä on laadittu 1980-luvun alussa, eikä ole enää kaikilta osin ajan tasalla.

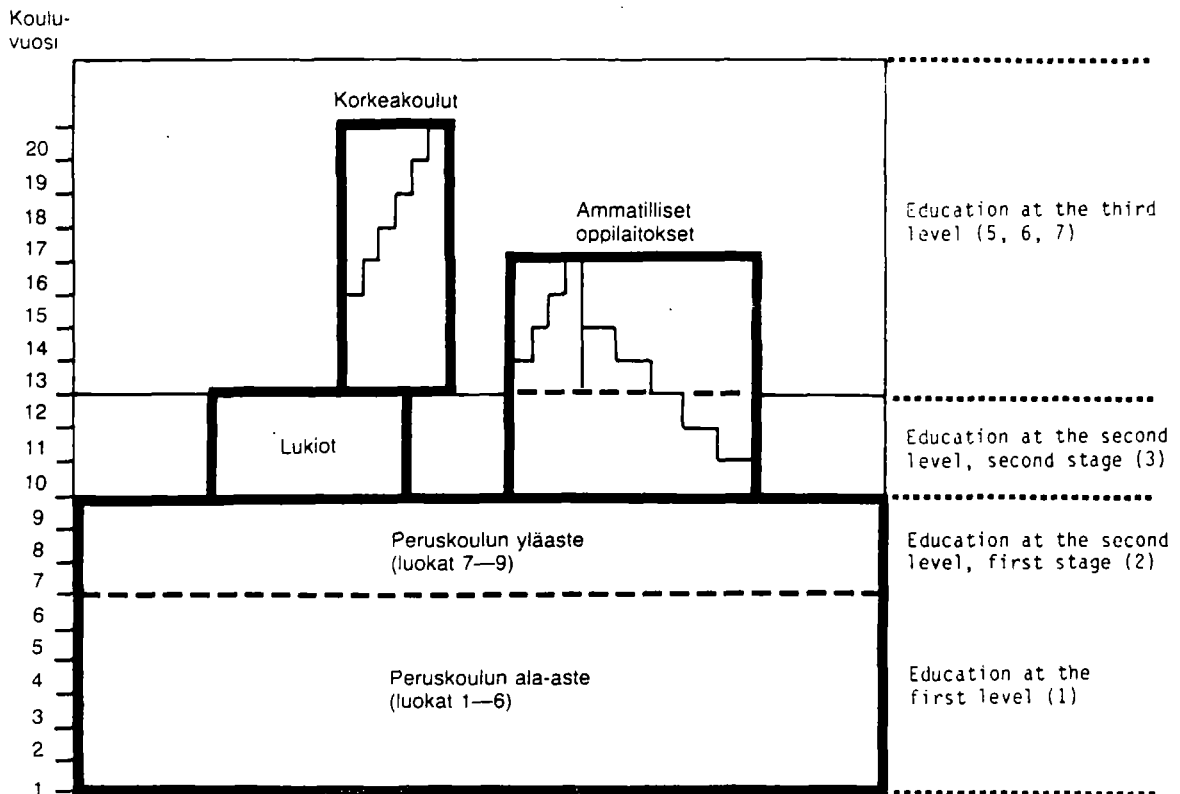

Toimistopäällikkö Heikki Havén on johtanut avaimen luokitus-työtä. Tämän liitteen on laatinut yliaktuaari Aila Repo.

2. ISCED

ISCEDin luokitusjärjestelmä perustuu kahteen kriteeriin: koulutuksen luokittamiseen asteen ja ainesisällön mukaan. Koulutusasteen (level) mittaaminen perustuu koulutusaikaan ja koulutus etenee vuosijaksoittain alemmilta koulutusasteilta ylemmille. Mitä pitemmästä koulutuksesta on kysymys, sitä korkeampi on koulutusaste. Koulutusala- ja -luokitus (field) perustuu koulutuksen ainesisältöön. Pienin luokitteleva yksikkö ISCEDissä on koulutusohjelmaryhmä (programme group). Täydellinen ISCED-koodi on 5-numeroinen.

Koodin ensimmäinen numero ilmaisee koulutusasteen (level). Koulutusasteita on 8. Koodin toinen ja kolmas numero ilmaisee koulutusalan. Koulutusaloja on 21. Kaikkia koulutusaloja ei ole joka koulutusasteella. Koodin neljäs ja viides numero ilmaisee koulutusohjelmaryhmän (programme group). 3-numeroisia ISCED-koodeja on noin 100 ja 5-numeroisia ISCED-koodeja on noin 500. Tämän liitteen avaimessa käytetään 3-numeroisia ISCED-koodeja. 5-numeroisista ISCED-koodeista ei ole laadittu avainta.

SUOMEN KOULUJÄRJESTELMÄ JA ISCED-KOULUTUSASTEET (LEVELS)

ISCED-koulutusalat ovat seuraavat

- 01 General programmes
- 08 Literacy programmes
- 14 Teacher training and education programmes
- 18 Fine and applied arts programmes
- 22 Humanities programmes
- 26 Religion and theology programmes
- 30 Social and behavioural science programmes
- 34 Commercial and business administration programmes
- 38 Law and jurisprudence programmes
- 42 Natural science programmes
- 46 Mathematics and computer science programmes
- 50 Medical and health programmes
- 52 Trade, craft and industrial programmes
- 54 Engineering programmes
- 58 Architectural and town-planning programmes
- 62 Agriculture, forestry and fishery programmes
- 66 Home economics (domestic science) programmes
- 70 Transport and communication programmes
- 78 Service trades programmes
- 84 Programmes in mass communication and documentation
- 89 Other programmes

3. Koodiavain

Koulutusluokituksen ja ISCEDin välisen avaimen perustana on 4-numeroinen koulutuskoodi ja 3-numeroinen ISCED-koodi. Aineiston uudelleen luokituksen välttämätön edellytys on, että aineisto on vähintään koulutusluokituksen 4-numeroisen jaottelun mukainen.

Kohdassa 4 on luettelo kansainvälisen koulutusluokituksen ISCEDin 3-numeroisista koodeista ja nimikkeistä.

Kohdassa 5 on Koulutusluokituksen (FSCED) ja ISCEDin välinen avain. Avain on listattu Koulutusluokituksen (FSCED) koulutusasteen ja 4-numeroisen koulutuskoodin mukaisessa järjestyksessä. Kaikille 4-numeroisille koulutuskoodeille on annettu 3-numeroinen ISCED-koodi.

Kohdassa 6 on ISCEDin ja Koulutusluokituksen (FSCED) välinen avain. Avain on listattu ISCEDin koulutusasteen (level) ja -alan (field) mukaisessa järjestyksessä. 3-numeroisen ISCED-koodin alla on kaikki tähän ryhmään sisällytetyt 4-numeroiset koulutuskoodit.

Koulutuskoodi-ISCED-koodiavain päivitetään vuosittain koulutuskoodien päivittämisen yhteydessä.

Koulutusluokituksen (FSCED) luokitteluyksikkönä on loppuun suoritettu koulutus. Koulutukset luokitellaan koulutusasteisiin koulutusajan mukaan.

Peruskoulun osalta on koulutusluokituksessa vain peruskoulun suoritusta osoittava koodi 2021 Peruskoulu. ISCEDin mukaan peruskoulu jaetaan kahteen osaan: peruskoulun ala-asteen koulutus (luokat 1-6) kuuluu ISCEDin koulutusasteelle Education at the first stage ja peruskoulun yläasteen koulutus (luokat 7-9) kuuluu ISCEDin koulutusasteelle Education at the second level, first stage.

ISCED KEY

1. Introduction

The UNESCO International Standard Classification of Education (ISCED) was adopted in 1976 and came into use in the international exchange of education statistics. The ISCED has been compiled for statistical purposes. Its aim is to improve comparability between international education statistics.

Education statistics allow comparison only at the level of very broad categories. This is due to differences in educational systems, in the availability and the methods of processing of statistics, and in the way each country interprets the ISCED.

The ISCED/Finnish Standard Classification of Education (FSCED) conversion key permits the regrouping of Finnish education statistics according to ISCED categories. The key cannot be used for comparisons of individual educational qualifications.

As a co-operation project of Nordic experts in education statistics, keys have been prepared enabling conversions between the ISCED and the Nordic national standard classifications of education (Nordic key for classification of education, Nordic statistisk sekretariat, Tekniska rapporter nr. 25). Prepared in the early 1980s, the publication is no longer fully up to date.

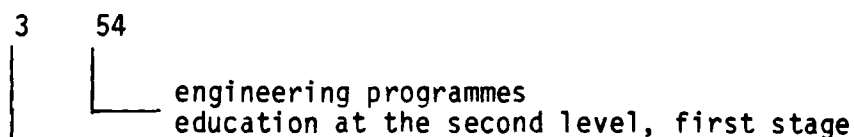

Heikki Havén, Head of the Education Statistics Division, has co-ordinated the work on the conversion key. This appendix has been prepared by Senior Statistician Aila Repo.

2. ISCED

The ISCED system of classification is based on two criteria, the level and the subject-matter content of education. The level of education is measured by the duration of education, education progressing in annual steps from lower to higher levels. The longer the duration of education, the higher the level of education. Classification of the fields of education is based on the subject-matter content of education. In the ISCED, the smallest unit of classification is the programme group. A complete ISCED code number has five digits.

The first digit of a code number identifies the level of education. There are eight levels of education. The second and the third digit identify the field of education. There are 21 fields of education. Not all fields are represented at every level of education. The fourth and the fifth digit identify the programme group. There are about 100 three-digit and about 500 five-digit ISCED code numbers. The conversion key presented in this appendix uses three-digit ISCED code numbers. No key has been prepared for five-digit ISCED code numbers.

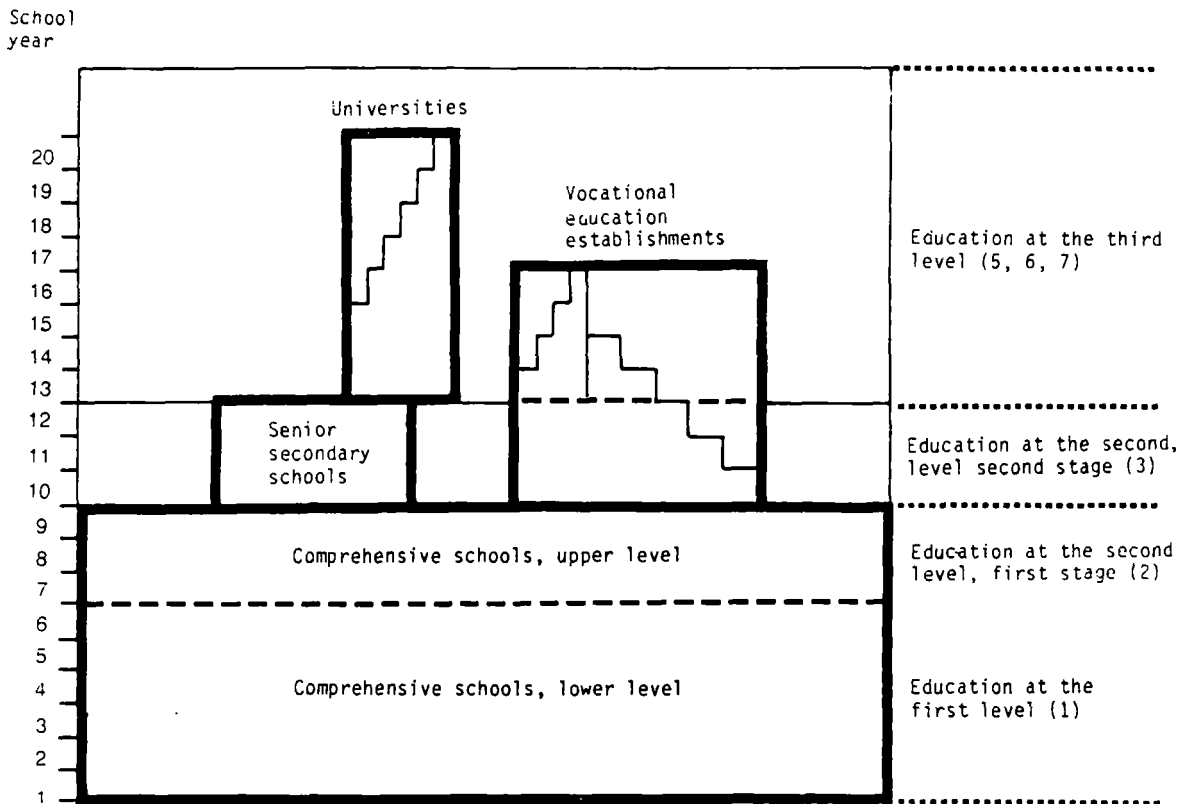

Example of a three-digit ISCED code number:

In the ISCED system, the levels of education and their principal contents are as follows:

- 0 Education preceding the first level
 - preschool grades and education provided by day care centres
- 1 Education at the first level
 - comprehensive school, lower level (grades 1-6)
- 2 Education at the second level, first stage
 - comprehensive school, upper level (grades 7-9 and the voluntary grade 10)
- 3 Education at the second level, second stage
 - senior secondary school
 - vocational education programmes based on comprehensive school or equivalent which last for less than four years
- 5 Education at the third level, first stage, of the type that leads to an award not equivalent to a first university degree
 - vocational education programmes based on comprehensive school or equivalent which last for at least four years
- 6 Education at the third level, first stage, of the type that leads to a first university degree or equivalent
 - bachelor's and master's degrees or equivalent
- 7 Education at the third level, second stage, of the type that leads to a postgraduate university degree or equivalent
 - licentiate's and doctor's degrees or equivalent
- 9 Education not definable by level

THE FINNISH EDUCATIONAL SYSTEM AND THE ISCED LEVEL CATEGORIES

The ISCED field categories are as follows:

- 01 General programmes
- 08 Literacy programmes
- 14 Teacher training and education programmes
- 18 Fine and applied arts programmes
- 22 Humanities programmes
- 26 Religion and theology programmes
- 30 Social and behavioural science programmes
- 34 Commercial and business administration programmes
- 38 Law and jurisprudence programmes
- 42 Natural science programmes
- 46 Mathematics and computer science programmes
- 50 Medical and health programmes
- 52 Trade, craft and industrial programmes
- 54 Engineering programmes
- 58 Architectural and town-planning programmes
- 62 Agriculture, forestry and fishery programmes
- 66 Home economics (domestic science) programmes
- 70 Transport and communication programmes
- 78 Service trades programmes
- 84 Programmes in mass communication and documentation
- 89 Other programmes

3. Conversion key

The FSCED/ISCED conversion key is based on 4-digit FSCED code numbers and 3-digit ISCED code numbers. A necessary condition for the reclassification of data is that the data accord with at least the 4-digit level of the FSCED system.

Item 4 lists the 3-digit ISCED code numbers and categories.

Item 5 contains the FSCED/ISCED conversion key. The listing is by FSCED level and programme group categories. All the 4-digit programme group code numbers have been given a 3-digit ISCED code number.

Item 6 contains the ISCED/FSCED conversion key. The listing is by ISCED level and field categories. Under each 3-digit category, all the 4-digit FSCED programme group categories are shown that belong to this category.

The FSCED/ISCED conversion key is updated annually, in connection with the updating of the FSCED programme group code numbers.

In the FSCED, the unit of classification is completed education. Level classification of educational attainments is by the duration of education.

For comprehensive school, the FSCED contains only the code number 2021 for completed comprehensive school education. In the ISCED, comprehensive school falls into two parts: comprehensive school, lower level (grades 1-6), belongs to Education at the first level and comprehensive school, upper level (grades 7-9), to Education at the second level, first stage.
